## Summary

Current Front End Engineer at Cloudflare, San Francisco. 3+ years experience of designing and creating big web applications using libraries as React and tools as Webpack. My focus is to build a platform to enable other engineers contribute faster and scale our efforts. I thrive on diverse and multidisciplinary teams. A good UI design and consistency is must. I have a background in Computer Science and Information Security.

## Work Experience

### Cloudflare

FRONT END ENGINEER

San Francisco, CA

Jan. 2017 - PRESENT

- Driving incremental migration from Backbone/Marionette to React and Redux.
- Replacing routing with react-router and creating a set of components for A/B testing and access control.
- Building a component library cf-ui, deploying and evangelizing CSS in JS (contributing into OSS Fela).
- Leading modularization of the main dashboard application with Lerna and Yarn Workspaces.
- Implementing tools to remove any gap between engineers and designers.

### Cloudflare

WEB ENGINEER INTERN

San Francisco, CA

May. 2016 - Aug. 2016

- Implemented JSON Schema powered documentation generator. Open sourced as doca.
- Switched main application's build process from Browserify and custom scripts to Webpack and Babel.

### Wikidi

FRONT END ENGINEER

Prague, Czech Republic

Oct. 2013 - Mar. 2016

- Lead developer at Flowreader.com. Working mostly remotely.
- Driving various product/feature work.
- Executed migration from CoffeeScript, Google Closure Library and Closure Compiler to Babel, React, Flux and Browserify.

### Westinghouse Electric Company

SOFTWARE ENGINEER INTERN

Windsor, CT

Jun. 2013 - Aug. 2013

- Developed a graphical user interface for a nuclear plant simulator.

## Education

### Georgia Institute of Technology

M.S. IN INFORMATION SECURITY

Atlanta, Georgia

2015 - 2016

- Receiver of Naumann-Etienne Foundation Scholarship.
- Focusing on network security and DNS datasets visualizations.

### Czech Technical University

B.S. IN COMPUTER SCIENCE

Prague, Czech Republic

2010 - 2014

- Spent one year at MSOE, Milwaukee, WI as an exchange student.
- Focusing on machine learning and deep learning.

## Projects

### Priznej.cz

CREATOR

Czech Republic

2013 - 2014

- A fun social project used by students of the 22 biggest Czech colleges.
- Gained a huge traction - over 100 000 fans in the first week and 500 000 in 3 months. It was covered by all national media.
- Sold in June 2014.

### Dzejes.cz

AUTHOR

Czech Republic

2015 - PRESENT

- A popular series of Czech articles about modern JavaScript web development.
- About libraries and patterns like Webpack, React, Flux and Immutable.js.
- It is open sourced and github hosted: [github.com/tajo/javascript](https://github.com/tajo/javascript).
